--:oOo:--

I enclose a statement (p. 6 infra) showing statistics of pendenc of darkhast work in Puttur and Kasargod Taluks (Includir Hosdrug Sub Taluk) of this District which speak for themselves. As soon as the ban on assignment of land was lifted, there was a heavy rush of applications. The cases which had been entered in Village Accounts Nos. 2 and 7 had also to be reopened. There was no special staff to attend to this item of work in the beginning and, as the regular staff could not cope with the work, the arrears mounted up. Inspite of stringent reviews and warnings, the Tahsildars were not able to make any substantial progress. I therefore asked the Revenue Divisional Officer, Puttur to investigate into the main causes for the slow progress and heavy arrears of darkhast applications in his division and report. His reasons for the slow progress in the disposal of darkhast applications are (1) heavy receipt of darkhast applications, (2) Lack of effective control over the work of the Village Karnams and Special Revenue Inspector (3) the regular Tahsildars and Deputy Tahsildars were not ~~able~~ able to devote sufficient attention to this branch of wor

as the other items of their work have increased. (4) the peculiar lie of the lands which makes, out-door work like check-measurement of the sub divisions etc. very difficult, (5) the present regular mobile staff for survey takes unduly long time to complete the survey and checkmeasurement work.

2. To have first hand knowledge of the state of affairs, I inspected the darkhast branch of the Taluk Office, Kasargod. I also scrutinised the darkhast work in some selected villages of Puttur taluk during my recent jamabandy camp at Puttur. I find that the control exercised over the work of the karnams in these taluks is very in-effective and things have not at all improved inspite of the appointment of the Special Revenue Inspectors. The karnams are keeping with them darkhast applications for six months and more without action and the Special Revenue Inspectors were not able to extract any tangible work from the Karnams. The number of applications received and pending in the taluk offices is very heavy and applications are daily pouring in. These taluks have very extensive areas of waste lands fit for assignment. The Tahsildars are unable to make any headway in the disposal of even old and long pending cases. I am of opinion that unless undivided special attention is paid to this branch of work by the Tahsildars of these two taluks, it will not be possible to dispose of the pending cases in a satisfactory way, without further delay and complaints from the public. The Tahsildars with their multifarious other duties are unable to pay proper attention to this work. I therefore, think that it is quite necessary to have a Special Deputy Tahsildar for each of these two taluks to attend solely darkhast work and to clear off the accumulated arrears. An Additional Taluk Surveyor is also necessary, for each of these two taluks to attend promptly, ~~and~~ side by side to the survey work involved in the assignment cases

I consider that the following additional staff is necessary for a period of 6 months to clear the arrears of work in the two taluks.

1. Two Deputy Tahsildars - one for Kasargod taluk and one for Puttur taluk.
2. Two Surveyors - one for each taluk.
3. Two chainmen to work under the surveyors.
4. Two peons to work under the Special Deputy Tahsildars.

I request that the Board may be pleased to address the Government to sanction the above Special staff for a period of six months or till the need for it ceases whichever is earlier.

Yours faithfully,

26/11/54

COLLECTOR.
